

# Copy Xpert

Copy Xpert is a powerful solution for your Data Center or Copy Room. Put a label on your documents without the old "peel 'n stick." No more expensive label stock. No more manual labor or valuable time wasted. Copy Xpert is a versatile software tool for production laser printers that lets you create professional quality, labeled documents quickly, accurately and easily. You control page images and the labeling process on your computer screen, so alignment is always precise and accurate.

And that's just the beginning.

Handles any document format with ease

You choose the format, Copy Xpert goes to work.

- Label flat, bound, single or dual-stitched pieces.
- Multi-up postcards labeled and automatically printed in order.
- Supports all label formats and page sizes your production laser printer supports.
- \*New\* Support for labels stored in a CSV file, with custom formatting.
- \*New\* Shade your labels with any color your printer supports.

New Page-Numbering features create new possibilities

- Raffle tickets
- Bates Numbering
- Crash Numbering for Multi-Part NCR

Custom features add even more flexibility

- Copy Xpert software goes far beyond labeling. Numbering and Padding make our software more flexible than ever.
- Custom numbering options for fixed-width, prefix, suffix and number sequencing within and between sets
- Padding option prints and slip sheets each pad for easy gluing and binding.
- \*New\* Support for distribution lists.
- \*New\* Support for black-and-white or COLOR documents.
- \*New\* A custom print driver supports all of the major features, including page exceptions:
  - Chapter Starts
  - Covers
  - Blank Page Inserts
  - Page Exceptions
  - Banners and Trailers
- \*New\* Support for tab stock, including both embedded and custom tab-text
- \*New\* Custom Support for Page Imposition, including:
  - Booklets
  - Calendars
  - Pamphlets

A wider range of supported printers
